MOHAMMED RIYAZ V

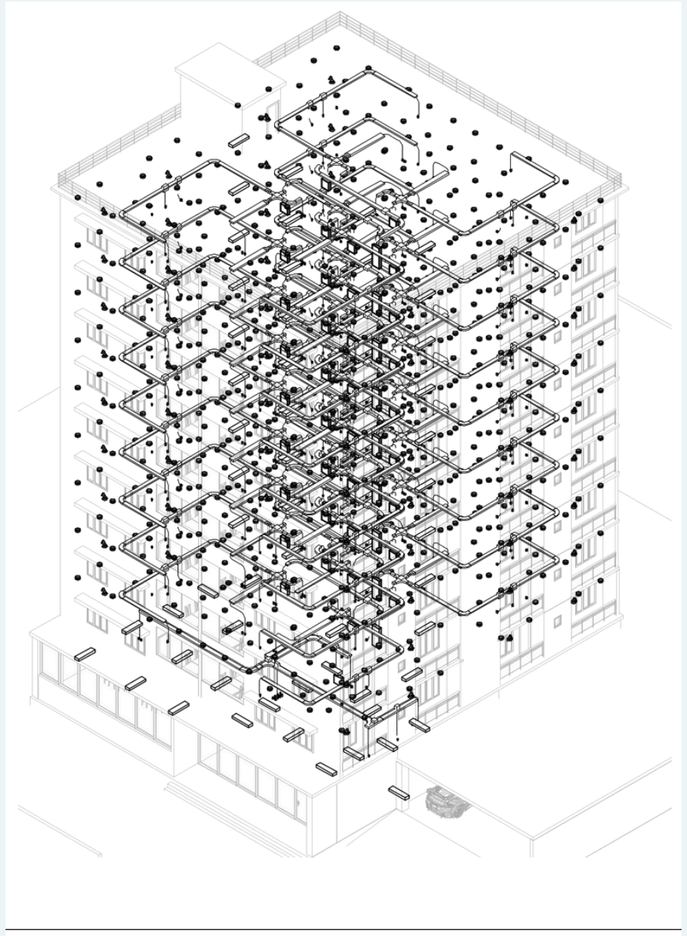

Electrical BIM Modeller

Revit MEP | AutoCAD

Electrical modelling and drafting for lighting, power distribution and fire alarm systems, with UAE warehouse-project exposure.

Electrical focus
Commercial buildings | Warehouse | Villa electrical design

Commercial building - electrical model detail

Electrical engineering with practical BIM project work

Electrical and Electronics Engineering graduate with project work in Revit MEP modelling and AutoCAD drafting. Portfolio scope includes lighting and power layouts, fire alarm modelling, single-line diagrams, electrical load estimation and parametric Revit families.

TECHNICAL TOOLKIT

Software: Revit MEP, AutoCAD, AutoCAD Electrical, MS Excel
Electrical: lighting layouts, power distribution, fire alarm systems, load estimation, lighting calculations and SLDs
BIM outputs: parametric families, schedules, BOQs and multidisciplinary model coordination

EDUCATION & CERTIFICATION

B.Tech - Electrical & Electronics Engineering
NSS College of Engineering, Palakkad | 2021 - 2025 | CGPA 7.14

Master Certificate in MEP Design
CADD Centre Training Services | June - November 2025

SELECTED EXPERIENCE

Freelance MEP Designer | September 2025
UAE warehouse: power and fire alarm modelling; supporting MEP family and piping coordination.

Commercial Building BIM Project | July - October 2025
Electrical layouts and supporting MEP modelling, schedules and BOQs.

KSEB Engineering Intern | July 2024
Exposure to hydroelectric transmission, transformers and switchgear maintenance/testing.

Warehouse: electrical modelling and MEP support

ROLE & SCOPE

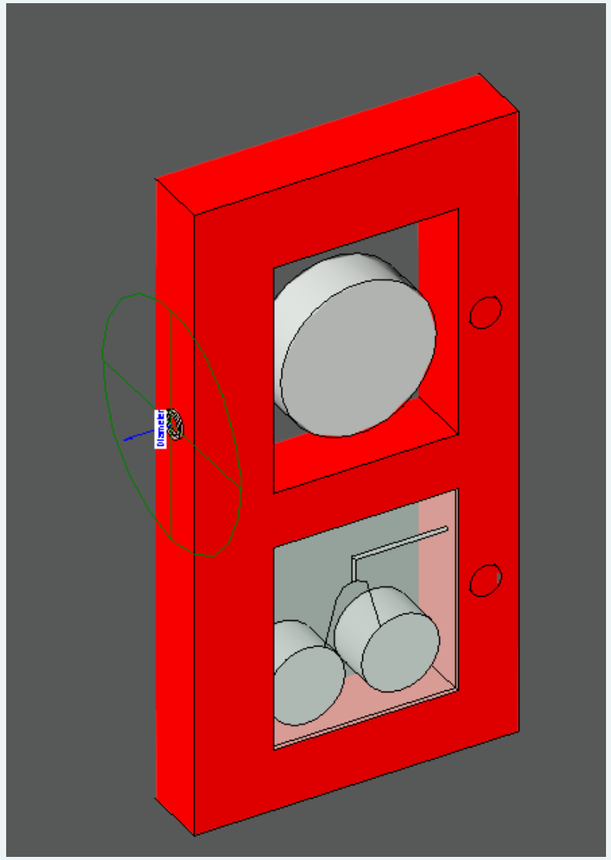

Freelance MEP Designer

Developed warehouse power and fire alarm layouts in Revit and aligned them with other building services to project requirements.

PERSONAL CONTRIBUTION

- Modelled electrical power and fire alarm systems.
- Coordinated layouts with the wider MEP model.
- Created a parametric fire hose reel cabinet family.
- Modelled and coordinated associated piping as supporting MEP work.

Tools: Revit MEP
Project context: UAE warehouse | September 2025
Displayed evidence: fire hose reel cabinet family

Fire hose reel cabinet
Supporting MEP family example

Electrical power: model and drawing output

ELECTRICAL POWER

Commercial-building electrical distribution model with a matching floor-plan view.

Scope shown

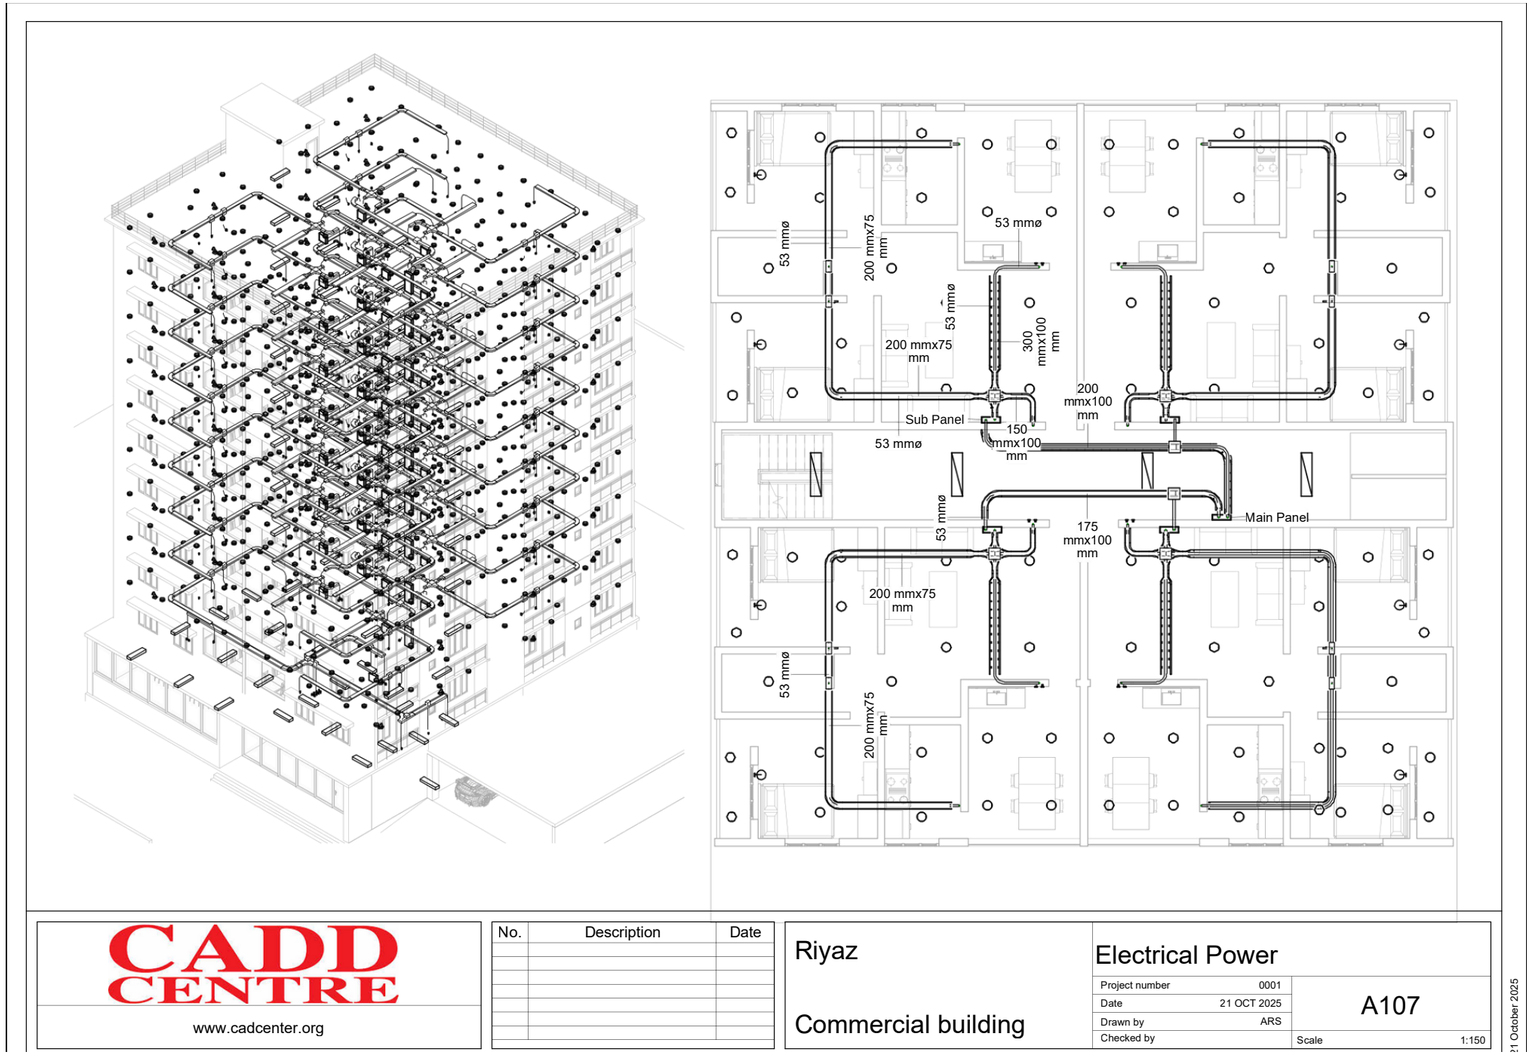

Main and sub-panel locations; containment and distribution routes; model-to-plan presentation.

Tools

Revit MEP / electrical drafting

Project work

2025

Electrical lighting: layout and system documentation

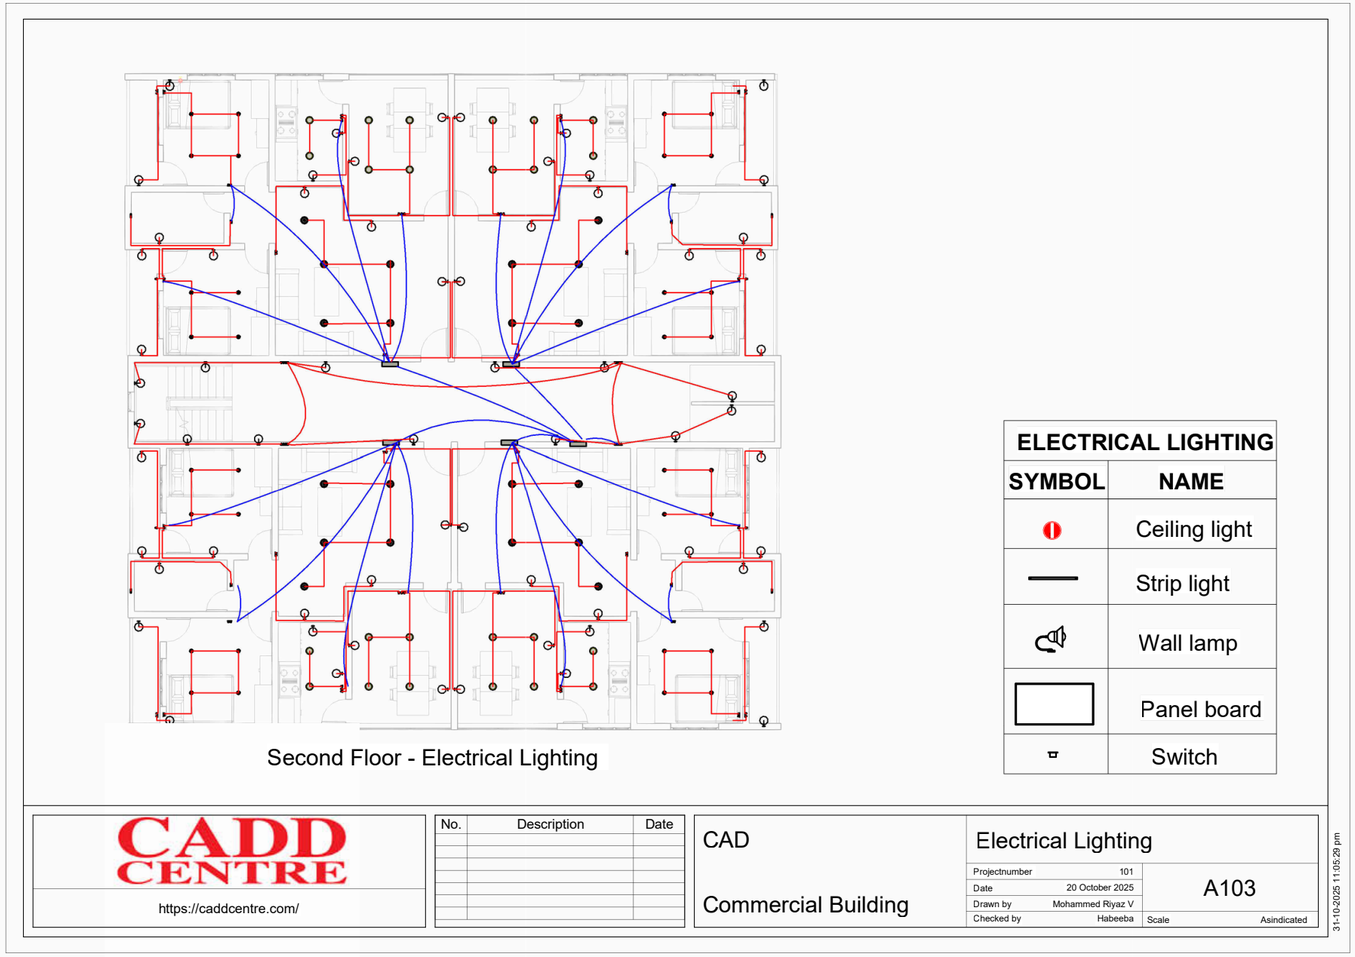

LIGHTING LAYOUT

Lighting fixture and switching layout presented as a coordinated electrical drawing.

Scope shown
Fixture placement, switching connections and a drawing legend.

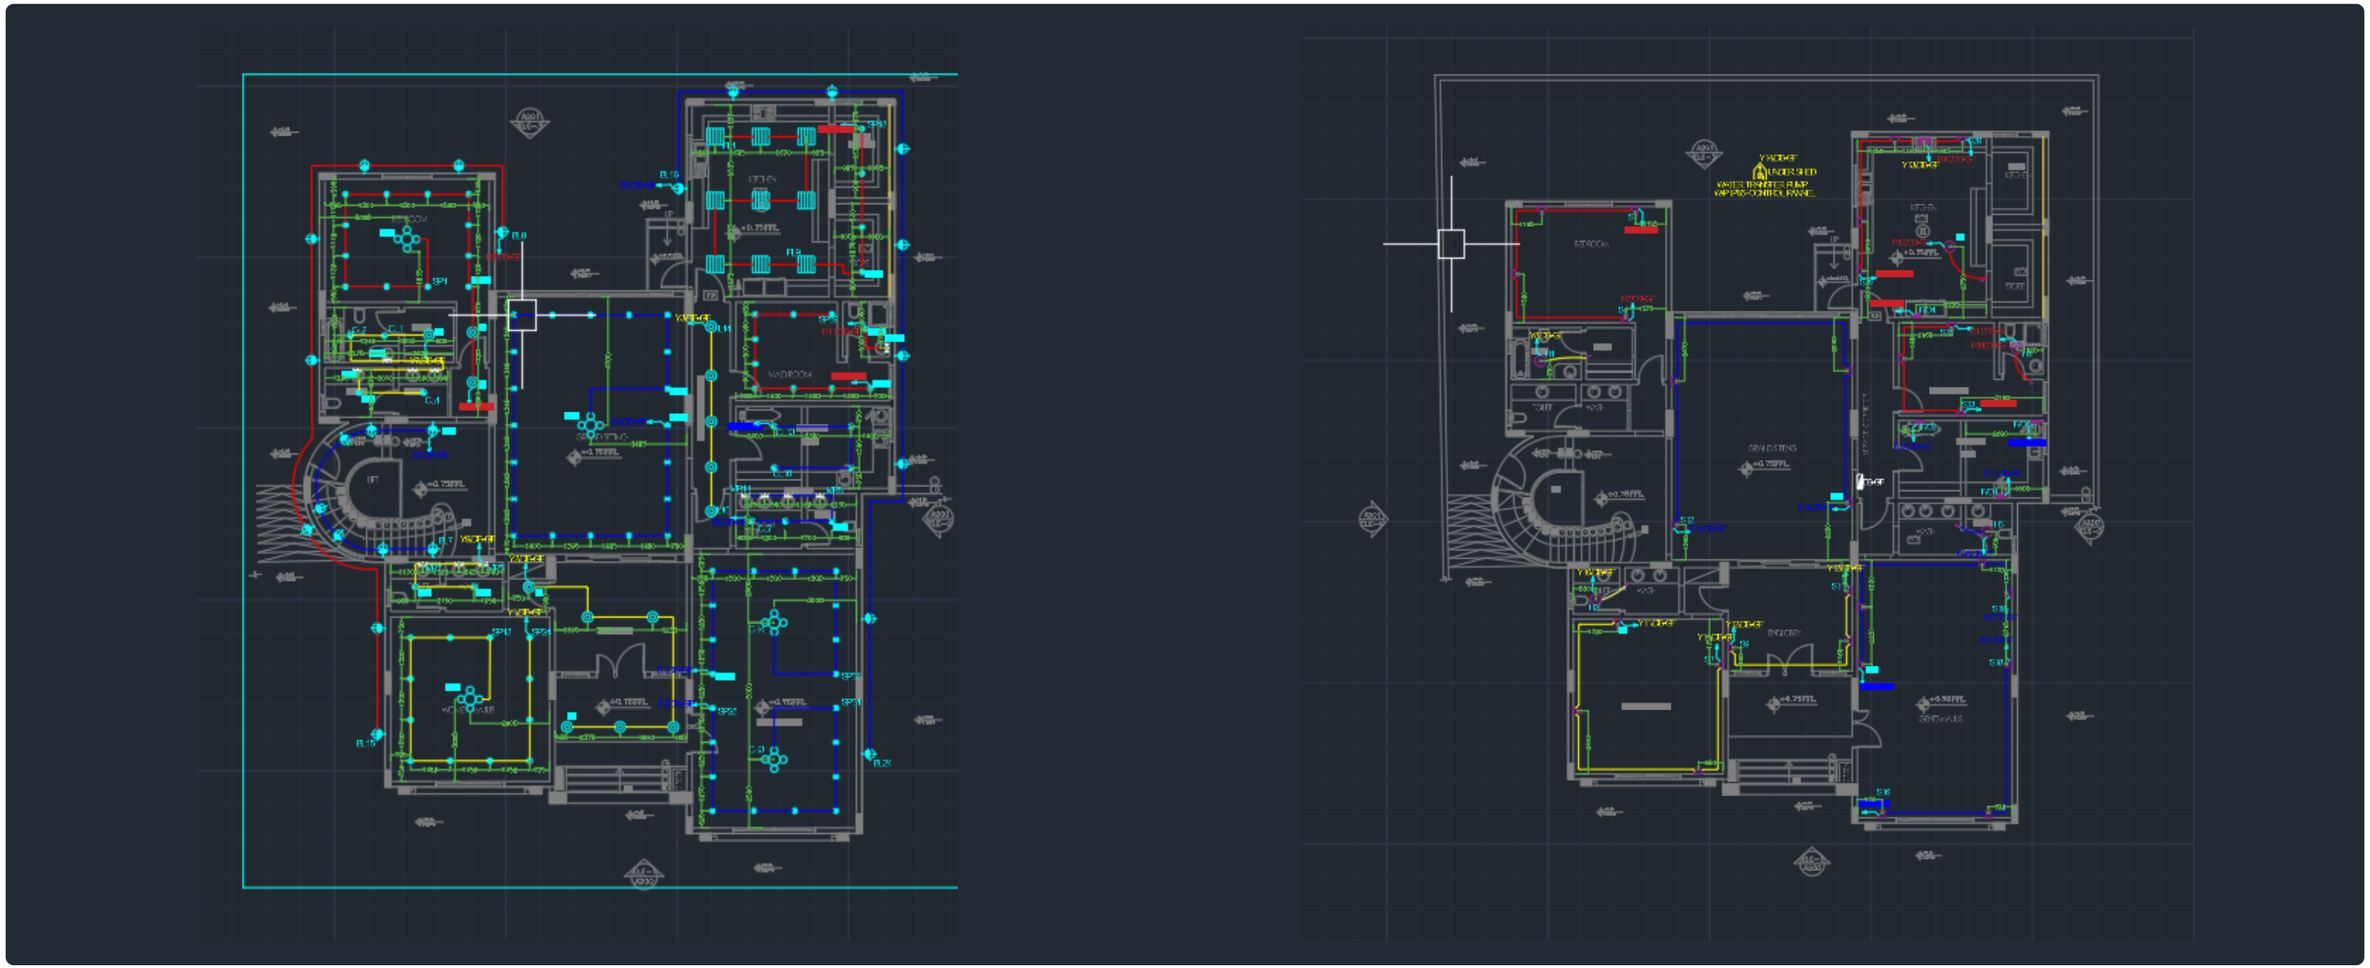

Drawing output
Second-floor electrical lighting

Project work
2025

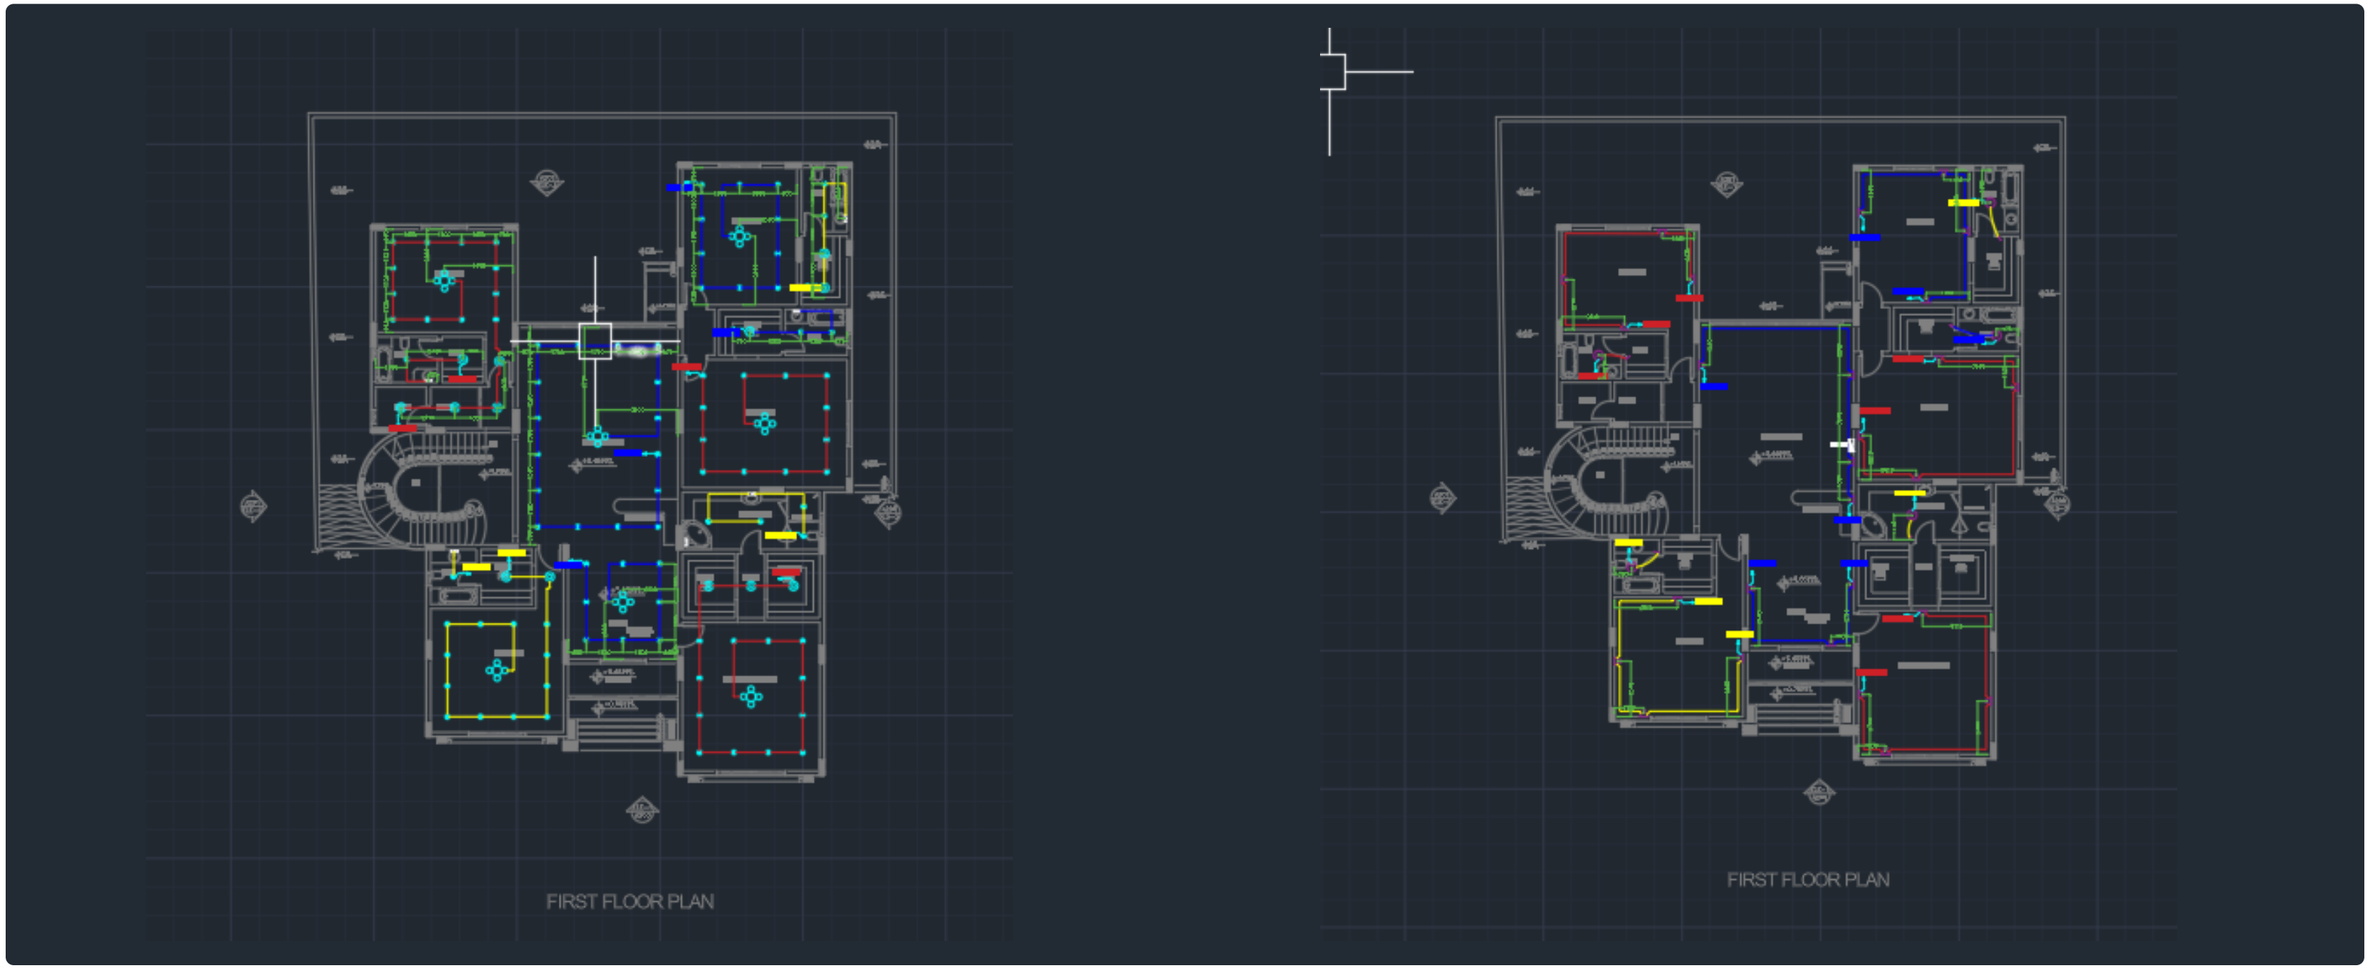

Villa electrical design: ground-floor layouts

Lighting and power plans from the G+1+R villa electrical design project.

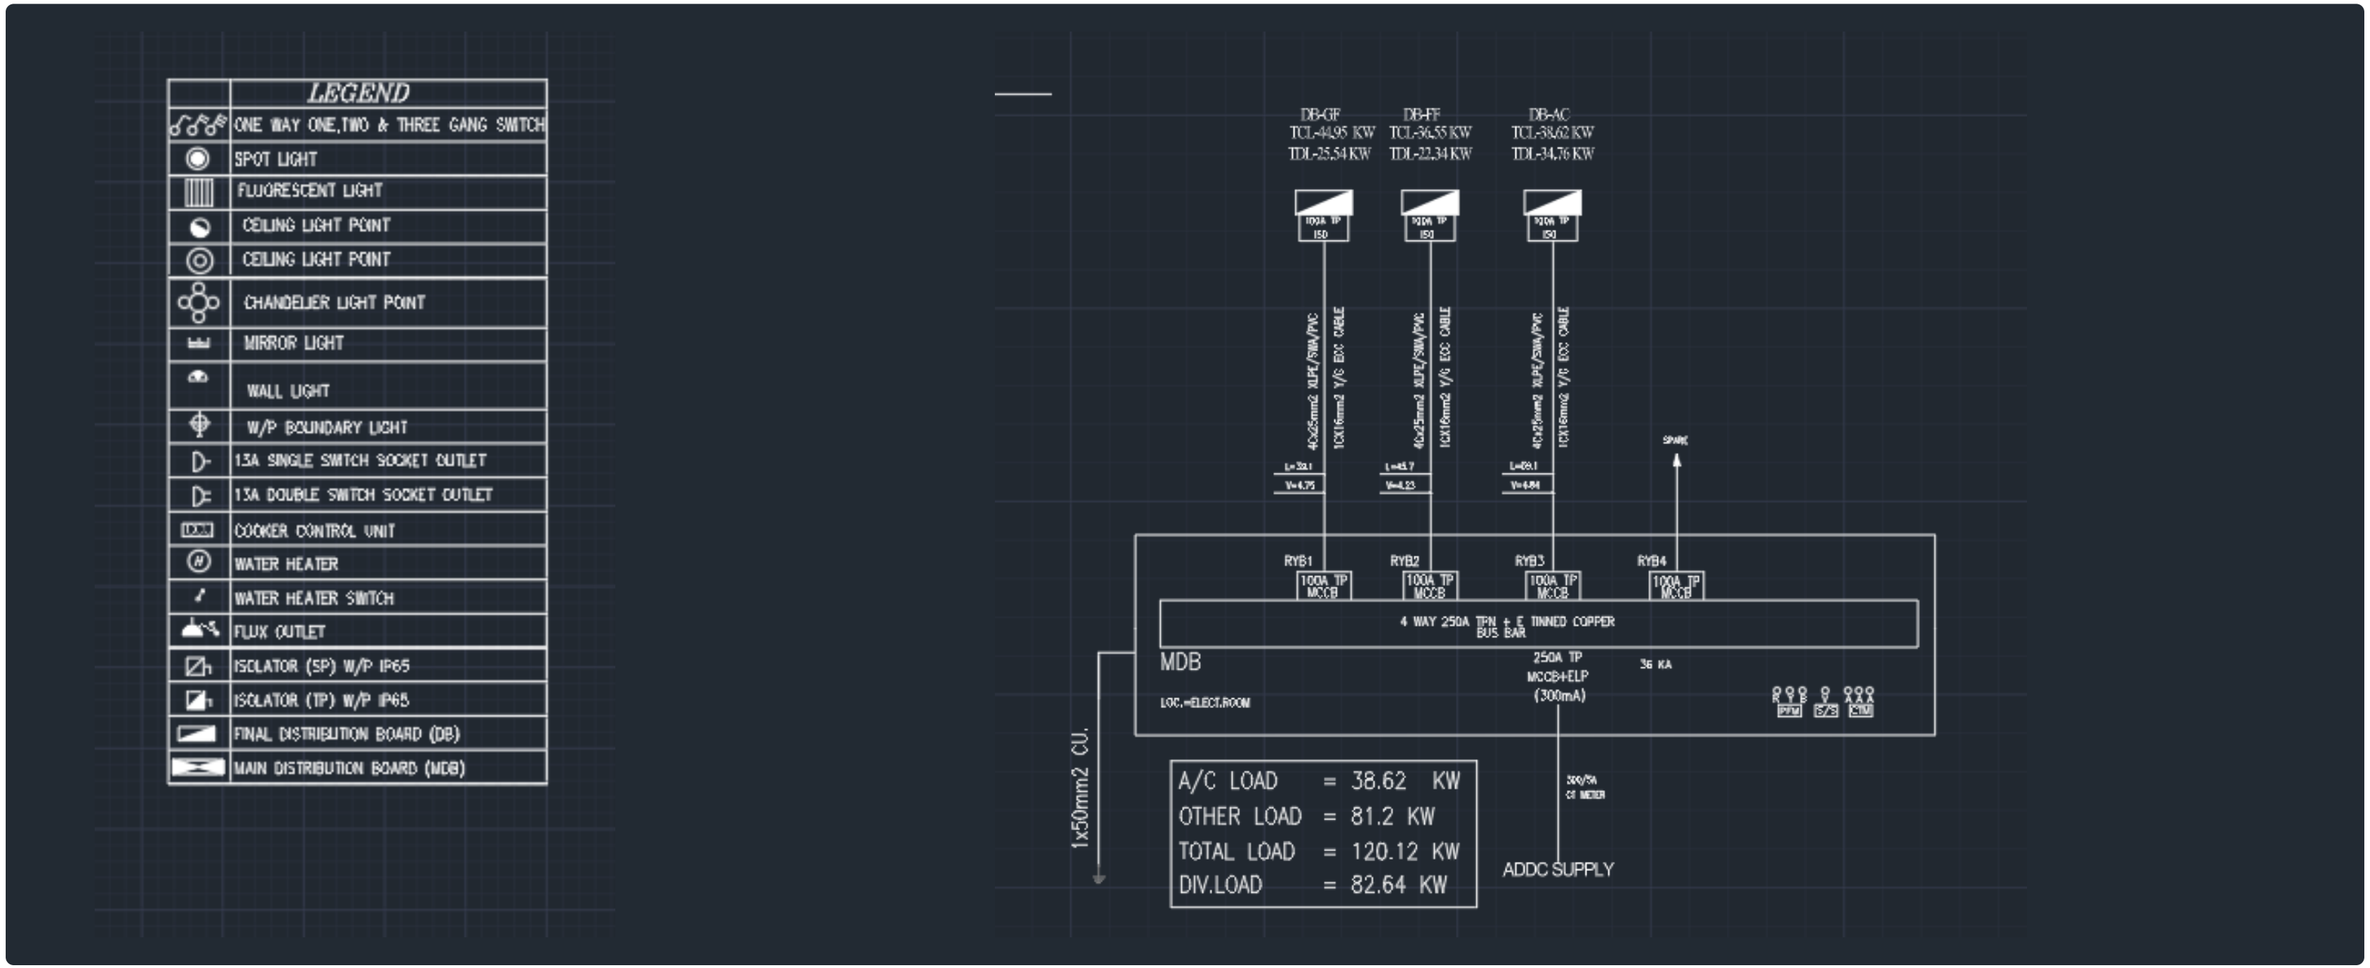

Villa electrical design: first-floor layouts

Lighting and power layouts showing circuit routing and electrical point locations.

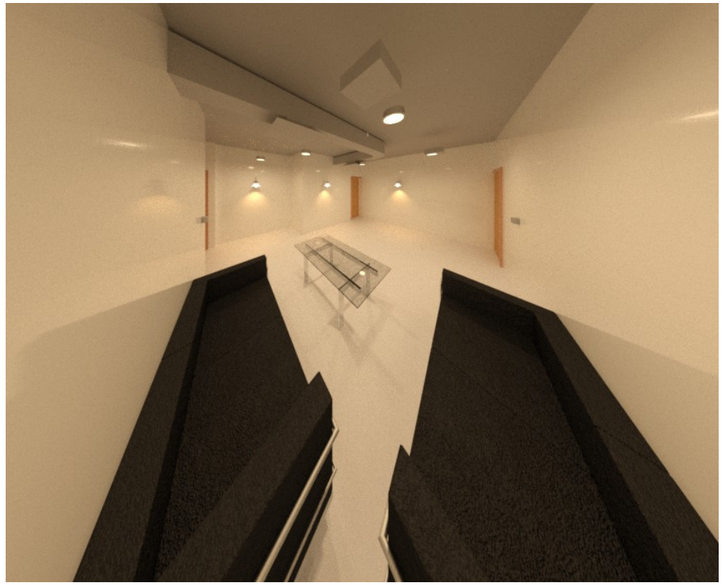

Single-line diagram and electrical symbols

Project documentation showing the distribution arrangement, load information and drawing legend.

Lighting placement and interior visualisation

Selected renders illustrate fixture placement and the visual lighting intent for residential spaces.

Living room

Bedroom

Staircase
